

PGY2 Psychiatric Pharmacy Residency

Based in Nashville, Tennessee, HCA Healthcare is **one of the nation's leading providers of healthcare** services. HCA Healthcare is made up of locally managed facilities that include >180 hospitals and approximately 1,800 sites of care, including surgery centers, freestanding ERs, urgent care centers and physician clinics, in 20 states and the United Kingdom.

Program Description and Benefits

The **PGY2 psychiatric pharmacy residency program** is shared between TriStar Centennial Medical Center Parthenon Pavilion and HCA Healthcare. TriStar Centennial Parthenon Pavilion is a 132-bed inpatient psychiatric facility located on the campus of HCA Healthcare's flagship hospital, TriStar Centennial Medical Center, and serves as the primary practice site for the resident. Throughout the year, the resident will be involved in projects at the hospital and enterprise level. The resident will also have many opportunities to be involved in and network with other psychiatric pharmacists at the local, state, and national level.

As members of a team of **eight pharmacy residents**, each resident performs the vital role as preceptor for students rotating through the corporate office practice site. HCA has strong ties to the three local schools of pharmacy and involvement with several others nationwide.

In addition to a competitive salary, residents also enjoy **additional benefits**:

- Medical, dental, and vision insurance available through the University of Tennessee
- Travel allowance for participation in professional meetings
- Free parking
- Access to corporate gym/workout facility

After Residency

This program will prepare graduates for clinical and leadership positions in psychiatric pharmacy.

Application Requirements

Utilize PhORCAS system to submit the following information by **December 31st**:

- Letter of intent
- Three letters of recommendation
- Curriculum vitae (CV)
- Official school transcripts

PGY2 Program Purpose: PGY2 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.
